4. **Resource Management**
   Users can upload, organize, tag, and search through various study materials, including documents, PDFs, and images.

Frequently Asked Questions (FAQs)

Q1. What if I forget my password?

Simply use the “Forgot Password” link on the login page and follow the steps sent to your email.

Q2. Can I use the app without internet?

Yes! You can still access key features and study materials with limited internet access. As we mentioned the offline access.

Q3. How do I find a study buddy?

Fill out your profile with your university, courses, and preferences. The system will suggest classmates who share your interests. After you have created your profile and have entered your personal preferences. Study Buddy then uses this information to suggest compatible study partners or groups.

Q4. Can I use this app on different devices?

Absolutely. It works smoothly on desktops, tablets, and smartphones.

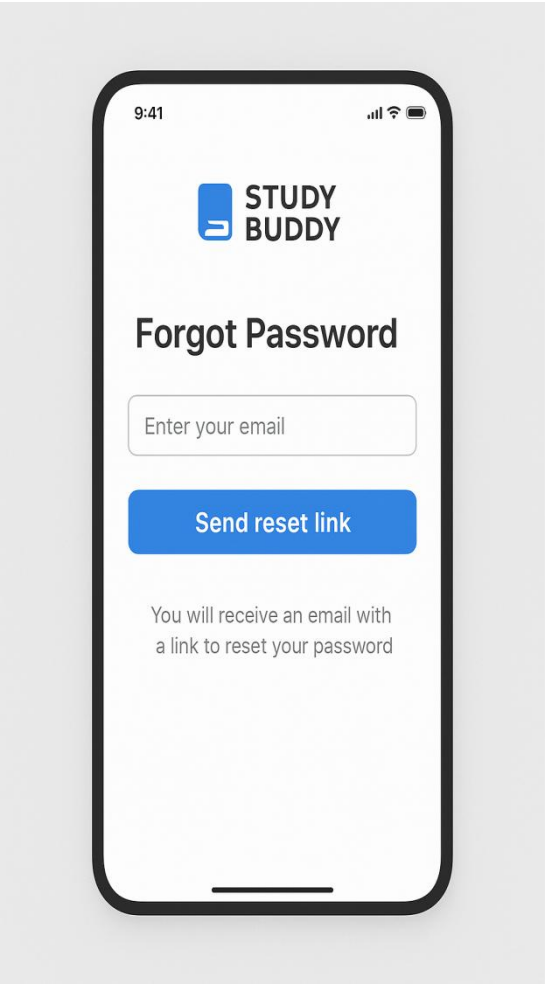
Q5. Is my personal information safe?

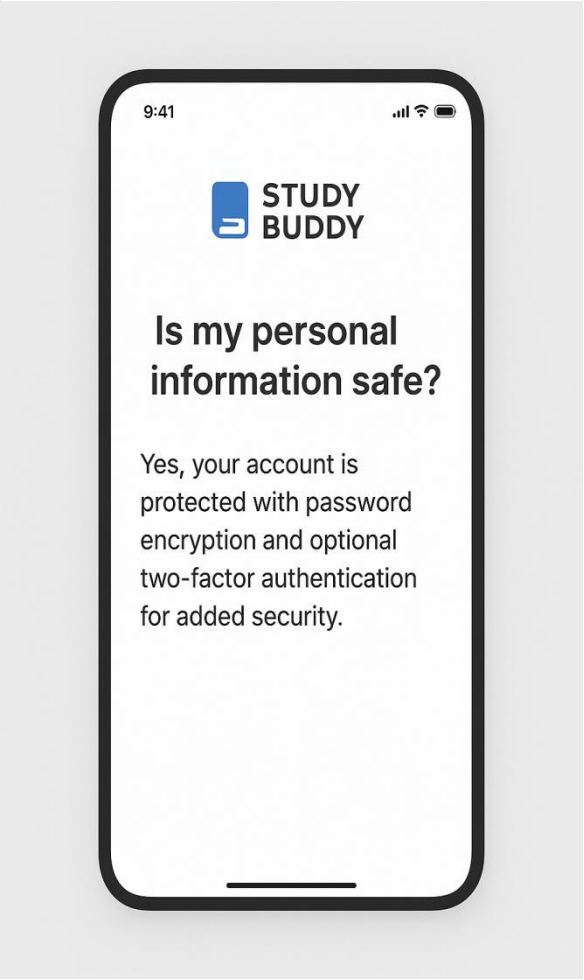
Yes, your account is protected with password encryption and optional two-factor authentication for added security.

Q6. What kind of community features can I access?

You can explore:

- **Chat rooms** for discussions
- **Study Marathons** for group sessions
- **Q&A Sessions** for peer support and quick academic help.





Troubleshooting Tips

Problem 1: I can't join a study meeting.

- Possible Causes:

  Poor or no internet connection.

  Outdated app version.

  Invalid meeting link or expired session.

Solutions:

1. Check your Wi-Fi/data connection.
2. Update the app to the latest version.
3. Request a new meeting link from your study partner.

Problem 2: My camera or microphone isn't working.

- Possible Causes:

  Permissions not granted

  Device settings blocking access.

Solutions:

1. Go to your device settings → Apps → Study Buddy → Allow camera & microphone.
2. Test your device's camera/mic in another app to confirm they work.
3. Rejoin the session after granting permissions.

Problem 3: I can't access my materials offline.

- Possible Causes:

  Files not downloaded before going offline.

Solutions:

1. While online, go to each resource and tap "Save for Offline."
2. Check storage space on your device.

Problem 5: I'm not receiving notifications.

- Possible Causes:

  Notifications disabled in app or device.

  Battery saver or Do Not Disturb mode active.

Solutions:

1. Go to Settings → Notifications → Enable all alerts.
2. Turn off "Do Not Disturb" or "Battery Saver."
3. Log out and log back in to refresh permissions.
